### How to Write Articles-

Here are a few basic steps to take to craft an interesting, informative article.

#### Method 1 of 3: Come Up With An Idea

1. Get to know your audience. Decide who you need to write for before proceeding with planning or writing an article. Identify the needs of your readership. What do your readers need to know? How does your own knowledge matchup against the information they need? This will be the easiest way for you to find a topic to write about
2. Be unique. If you are writing an article about something that other people are also writing about, try to be unique in how you approach the material
3. Be passionate. You should care about the topic you choose to write about. Your enthusiasm will show in your writing and it will be much more engaging for your readers

#### Method 2 of 3: Research Your Idea

1. Learn the basics. Get the general explanation of whatever you are trying to write about. This will give you a basic framework for what to look for as you research.
2. Find reliable sources. Now that you know what to look for, research your topic. You can use the internet, a library, conduct interviews, watch documentaries, or whatever you feel is appropriate to teach you everything you need to know about your topic. Be an expert!
3. Get different types of material. During your research, look for material that isn't text. This can be used or altered to add to your article.

#### Method 3 of 3: Write Your Article

1. Decide your length. Does this article have a word count? Do you need to fill a certain number of pages? Consider what type of content you're writing about and how much space that can fill, as well as how much needs to be written in order to cover the topic adequately, before proceeding with writing your article.
2. Outline your article. Before you begin formal writing, you will want to outline your article.
3. Edit your work. Before you submit your work, you will want to do some editing and revision. If time allows, wait for a day or two before editing
4. Respect the rights of other writers. If you are using information from an external source, be sure to cite the source at the bottom of the article.
5. Submit your work. When you've finished, submit your work in the appropriate manner.

### ABSTRACT:

The present paper identifies the woman who holds the titular role in the novel and places her in a new light where the psychic transformations are observed and experienced by the society. This critical analysis also emphasizes the importance of the partaking role of women in the society in making the right choice. The social canon of equating women with tranquility is reworked by the self realization achieved by female protagonist of this present novel.

Abstract Report: The Title Accurately Said The Study was About.

### INTRODUCTION:

The novel *The Devil and Miss Prym* revolves around the conflict between good and evil which actually served as its main theme. It tackles one of the most frequently asked questions in our lives as human beings – are we naturally good or evil? It gives emphasis on the role of the decisions and choices we make and take in order to arrive in the conclusion that we seek. Underlying the broad theme of good and evil, the author uses temptation as the means to bring about spur of events which leads the characters to the main conclusion of the story; good and evil both resides within us and the only thing that matters is how are we going to manage them and maintain balance.

### CONCLUSION:

The Devil and Miss Prym throws light on the innate nature of human beings; in fact it deals with the question: Are human beings essentially good or evil? Coelho correctly refers to the story of Adam and Eve which demonstrates man as an instrument of evil. The dilemma Chantal faced in the story revolved around the choice between giving into the temptation or to fight against it. If she chose to give into temptation, she can secure her dream to leave Viscos and explore the world but this will compromise her belief that we human beings are not evil in essence.

Conclusion Report: The Text is Rounded off with a Conclusion that Discusses the Implication of The Findings & Ideas Discussed & Their Impact on Future Research Direction.
