ABSTRACT

As factories and business enterprises grew in large numbers in a given location, this led to the rise and growth of cities as people moved from the rural areas into urban areas in search of jobs. The Industrial Revolution created an industrial society where the living conditions were much better than that of living in the rural society. There was an increase in the availability of food, clothing and shelter, health care, educational opportunities and better wages.

Introduction

However, in spite of the technological and socioeconomic advancement during this era through mechanization of agriculture, factories and transportation system, it was during this Industrial Revolution of urbanization, and industrialization that also gave rise to dreadful sanitary and public health conditions in which people had to live and work.

A Good Introduction :-

Importance of the expected results to the general inquiry Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

Must add methods and materials in your article.

A Good Materials :-

Methods & Materials used to per research topic.

Result

Must add result in your article.

A Good Result :-

Results are as per aims and objective and useful to further research.

Conclusion

As the number of factories grew with the thousands of people coming in from the rural areas seeking better paying jobs, shelters and rooms became overcrowded where a room would be rented to whole family. Houses were overcrowded and If there were no rooms to be rented, then people would bunch up in lodging houses.

A Good Conclusion :-

Clarify the majority of your perceptions however much as could be expected, concentrating on systems. Choose if the trial outline satisfactorily tended to the speculation, and whether it was legitimately controlled.

HOW TO INCREASE API**Services for Associate Professor to Professor**

- ★ Thesis convert into book.Publish in USA - 50 API Marks
- ★ 15 Articles from your Ph.D thesis - 150 API Marks
- ★ UGC Minor Research Project - 10 API Marks
- ★ UGC Major Research Project - 15 API Marks
- ★ Call for Book Chapter - 25 API Marks
- ★ 5 Seminar Paper presentation - 50 API Marks
(we organize)

REVIEWER COMMENTS

- The presentation is pertinent and hypothesis based.
- Sufficient data about the past study discoveries is displayed for perusers to take after the present study method of reasoning and strategies.
- Generally, this is a reasonable, brief, and elegantly composed original copy.
