ABSTRACT

Use of technology in human resource management activity is evolving rapidly. HR professionals must use these technologies appropriately in order to help organizations to utilize and increase their human capital base. Use of these information technologies on different types of HR activities has been discussed in the paper. The central focus of this paper is to study the interface between two fields of study Human Resource Development (HRD) and Information Technology (IT).

Review of the Article:

The present study focuses on integrating Human Resource DevelopmentWith Technology. The introduction builds a logical case and context for the problem statement. The problem statement is clear and well articulated.

Abstract:

The abstract is complete, essential details are presented. The results in the abstract are presented in sufficient and specific detail. The conclusions in the abstract are justified by the information in the abstract and the text. There are no inconsistencies in detail between the abstract and the text. Key words have been mentioned in the abstract.

Reference to the Literature and Documentation:

The literature review is up-to-date. The number of references are appropriate and their selection is judicious. The review of the literature is well integrated.

Instrumentation, Data Collection:

The measurement instrument is appropriate given the study's variables; the scoring method is clearly defined. The data set is sufficiently described.

Data Analysis and Statistics:

Data analysis procedures are sufficiently described, and are sufficiently detailed.

Presentation and Documentation:

The text is well written and easy to follow. The vocabulary is appropriate. The content is complete and fully congruent. The results are complete. The amount of data presented is sufficient and appropriate. Tables or figures are used judiciously and agree with the text.

Scientific Conduct:

There are no instances of plagiarism. Ideas and materials of others are correctly attributed.

Discussion and Conclusion:

The conclusions are clearly stated; key points stand out. The conclusions follow from the design, methods, and results; justification of conclusions is well articulated.

References:

References are mentioned in a good manner with sufficient details.

Overall the study is relevant to the mission of the journal or its audience.

SUMMARY OF ARTICLE

No.		Very High	High	Aver-age	Low	Very Low
1.	Interest of the topic to the readers	✓				
2.	Originally & Novelty of the ideas		✓			
3.	Importance of the proposed ideas		✓			
4.	Timelines	✓				
5.	Sufficient information to support the assertions made & conclusion drawn			✓		
6.	Quality of writing (Organization, Clarity, Accuracy Grammer)		✓			
7.	References & Citation (Up-to-date, Appropriate Sufficient)	✓
