ABSTRACT

Today per kg cost of casting is the basic platform that uses as a measure to cost of casting. In foundry industries die casting is a versatility process of producing engineered metal parts which is used in automobile and many other industries. These components are made through forcing molten metal under high pressure into reusable steel molds. The product produced under die casting is high volume and mass-produced items. In today's competitive situation every industry has try to update quality management system to make themselves top in business.

REVIEW OF THE ARTICLE

**Use Of Activity Based Costing For Improving Performance
In Kolhapur Foundries**

Asif Babalal Waghware and A. M. Gurav

Title and Abstract

Title was good having accurate length. The abstract was complete and essential details were presented. The present study has been done to study the Use Of Activity Based Costing For Improving Performance In Kolhapur Foundries.

Introduction:

Introduction was justifying. Significance of the area under study mentioned clearly in Introduction. In today's competitive situation every industry has try to update quality management system to make themselves top in business.

Reference to the Literature and Documentation:

The literature review was up-to-date. The number of references was appropriate and their selection was judicious. The review of the literature was well integrated. The references were mainly primary sources.

Methodology:

The purpose of this article was to focus on the top management and operational team can receive the benefits from adoption of activity based costing system.

Presentation of Results:

The amount of data presented was sufficient and appropriate. The result was congruent with the earlier studies on social support may lead to work-family enrichment. traditional costing system is incapable to provide accurate cost of the product. In activity based costing costs are allocated to the different activities which are necessary for producing the product and cost of activities are allocated to the final product on the bases of unit level and batch level.

Conclusions:

Personal perspectives or values related to interpretations were discussed. By using activity based costing system the Kolhapur foundries can improve its performance.

Scientific Conduct:

There were no instances of plagiarism. Ideas and materials of others are correctly attributed.

Relevance:

The study was relevant to the mission of the journal or its audience. The study was worth doing.

SUMMARY OF ARTICLE

No.		Very High	High	Average	Low	Very Low
1.	Interest of the topic to the readers	✓				
2.	Originally & Novelty of the ideas		✓			
3.	Importance of the proposed ideas			✓		
4.	Timelines	✓				
5.	Sufficient information to support the assertions made & conclusion drawn		✓	✓		
6.	Quality of writing (Organization, Clarity, Accuracy Grammer)		✓			
7.	References & Citation (Up-to-date, Appropriate Sufficient)		✓			

FUTURE RESEARCH SCOPE:

1. Manufacturing System Performance Improvement by Value Stream Mapping a Literature Review.
2. Activity based costing - a tool for decision making.
3. Activity based costing (ABC) vs. traditional cost accounting system.
4. Resources management & sustainable development.
5. Corporate responsibility, ethics & accountability.

HOW TO INCREASE API

Services for Associate Professor to Professor

- Thesis convert into book. Publish in USA 50 API Marks
- 15 Articles from your Ph.D thesis 150 API Marks
- UGC Minor Research Project 10 API Marks
- UGC Major Research Project 15 API Marks
- Call for Book Chapter 25 API Marks
- 5 Seminar Paper presentation (we organize) 50 API Marks
