REVIEW OF THE ARTICLE

A Study Of Perceived Depression Among The Employed And Unemployed Youth

Amrapali Mahadeo Jogdand

Abstract:

The title was clear and well phrased. The abstract was gross and essential details were presented. Primary goal of the paper was to study Perceived Depression Among The Employed And Unemployed Youth.

Introduction:

Introduction was rationalizing. The present study focused to analyze the Depression among employed and Unemployed Youth. Depression is defined as a whole body illness, involving not the body, mood, and thoughts. It affected the way you eat and sleep, the way you feel about yourself, and the way you think about things.

Reference to the Literature and Documentation:

The literature review was up-to-date. The number of references was appropriate and their selection was judicious. The review of the literature was well structured.

Methodology:

Objectives of the study stated clearly. There were two groups (40 unemployed and 40 employed youth) ranging age between 28 to 32 years. The Mental Depression Scale is developed by L.N. Dubey was used. The measurement instrument was appropriate given the study's variables; the scoring method was clearly defined.

Presentation of Results:

The amount of data presented was sufficient and appropriate. The amount of data presented was sufficient and appropriate. Tables, graphs, or figures were used judiciously and agree with the text. There was significant difference regarding Depression level between Unemployed youth and Employed youth.

Scientific Conduct:

There were no instances of plagiarism. Ideas and materials of others were correctly attributed.

Relevance:

The study was relevant to the mission of the journal or its audience. The study was worth doing.

References:

Prior publication by the author(s) of substantial portions of the data or study was appropriately acknowledged.

SUMMARY OF ARTICLE

No.		Very High	High	Average	Low	Very Low
