REVIEW OF THE ARTICLE

Opinion On Utilization Of Technology Source (E-content) For Enhancing Knowledge Among High School Students

P. Manikandan¹ and Dr. K. Dhanalakshmi²

ABSTRACT:

The problem statement was clear and well articulated. The lives of teens have undergone significant changes in the past few years by the acceptance of computers. The use of computers by teens and their skills affect their life. Teens have extensive exposure to computers in their school and out-of-school contexts and their concomitant dispositions to learning and activity. Now a day's digital technology has been an integral part of their lives. Information technologies in education refer to teaching and learning the subject matter that enables understanding the functions and effective use.

INTRODUCTION:

The introduction provides a good, generalized background of the topic that quickly gives the reader an appreciation. In a multi-cultural, multi-lingual and multi-religious country like India, the role of educational changes from place to place. India is heading towards global Education. Students can practice collaboration skills by working in teams on projects using shared documents or conferencing technologies. Technology gives students the most current information available. Electronic textbooks or web-based content can be updated in real-time.

METHODOLOGY:

The present study was exclusively realized on secondary data sources. It was purely descriptive type of research since it describes the facts relating to the problem. The survey method was carried. The population for the present study includes high school students studying in government, government aided and private high schools in Salem district. The investigator has taken 512 high school students for the study. The samples have been selected by using simple random sampling techniques.

PRESENTATION OF RESULTS:

The amount of data presented was sufficient and appropriate. Tables, graphs, or figures were used judiciously and agree with the text. There are numerous benefits for students from technology enhanced learning when properly applied. Theories were learnt by memorization which can easily be forgotten, the use of technology help students to learn them with ease and retain them in their memory for a very long period.

REFERENCES:

Prior publication by the author(s) of substantial portions of the data or study was appropriately acknowledged.

RELEVANCE:

The study was relevant to the mission of the journal or its audience. The study addresses important problems or issues; the study was worth doing.

FUTURE RESEARCH SCOPE:

1. INDIAN SUSTAINABILITY CONGRESS BANGALORE, India (<http://isustainability.in/>)
2. International Education Conference New Delhi, India (<http://sassconference.gnbo.com.ng/>)
3. A Training program on "Incorporation of Pedagogy in Engineering Education"(<http://cce.iisc.ernet.in/Pedagogy1.pdf>)
4. Internet Course on Environmental Management (http://cce.iisc.ernet.in/EM_2013.pdf)\
5. 8 major education projects announced by India, US (<http://www.indiaeducationreview.com/news/8-major-education-projects-announced-india-us>)
6. Projects - Education (http://www.indiarural.org/projects_education.htm)

SUMMARY OF ARTICLE

		Very High	High	Average	Low	Very Low
1.	Interest of the topic to the readers	✓				
2.	Originally & Novelty of the ideas		✓			
3.	Importance of the proposed ideas			✓		
4.	Timelines		✓			
5.	Sufficient information to support the assertions made & conclusion drawn	✓				
6.	Quality of writing(Organization, Clarity, Accuracy Grammer)			✓		
7.	References & Citation(Up-to-date, Appropriate Sufficient)		✓			

Future Research Suggestions

This Article can expand further research for MINOR/MAJOR Research Project at UGC
