REVIEW OF THE ARTICLE

Management Education-an Impetus To Economic Development

Mrs. Radhika Khairnar¹ and Dr. Vijay Uttarwar²

ABSTRACT:

The problem statement was clear and well articulated. The paper largely discusses the evolution of management education from the pre-independence period. It gives a comparative analysis between the management education in India and the Western economy. Various factors contributing to the growth of the nation's economy are stated in the paper. One of the important factors that provide impetus to the growth and stability of the nation is education. Amongst that is management education which is closely related to the industrial sector and related growth. However, management education still lies among one of the neglected facets of education.

INTRODUCTION:

The introduction provides a good, generalized background of the topic that quickly gives the reader an appreciation. Management education has been in existence since long; either formally or informally. It first began even before independence. At that point of time it mainly related for the working professionals. National management institutes were set up in 1960's. These grew exponentially with lakhs of management departments across India in 1990's. Initially, management education was driven by Corporation or corporate houses.

METHODOLOGY:

Author has not mentioned any specific methodology. This study was descriptive in nature. Must add methodology in your article. Methodology used to per research topic.

PRESENTATION OF RESULTS:

The amount of data presented was sufficient and appropriate. Tables, graphs, or figures were used judiciously and agree with the text. It has been observed that in the development of the nation many factors should be taken into consideration. One of the most important and imperative factors is education. Looking at the industrial sector, the supply of good management graduates is not just a need but a much essential parameter in the development of the economy. For various business schools in India it is important and certain that the need of developing liaison between industry and institute needs to be established.
