# ARTICLE REVIEW REPORT

## Women Health In Slum Areas: Review Evidence

Mr. Shekarraj Tippanna

### ABSTRACT:

The problem statement was clear and well articulated Review of literature is like heart of research study. Therefore, it plays significant role to reveal the progress of research in certain key areas in subjects and helps to know about the research gap and to certify that the research problem to do research. In the present paper, a ephemeral review of literature is made covering the research articles /papers that are published on Women health in slum areas: review evidence in different parts of India in research journals from 1988 to 2014.

### INTRODUCTION:

The introduction provides a good, generalized background of the topic that quickly gives the reader an appreciation Review of literature means to an extensive, exhaustive and systematic examination and publications relevant to the research. The review of literature provides a basis for future investigations, justifies the need for replication, highlight on the feasibility of the study, indicates constraints of data collection and helps to relate the findings of one study to another. Review of literature can play a vital role in a research study and it is a critical summary of research on a topic of interest.

### METHODOLOGY:

The present study was exclusively realized on secondary data sources. It was purely descriptive type of research since it describes the facts relating to the problem. As mentioned in the above objectives of the research study the author searched and collected the various reputed and recognised journals and gathered many of research articles.

### PRESENTATION OF RESULTS:

The amount of data presented was sufficient and appropriate. Tables, graphs, or figures were used judiciously and agree with the text The review of related literature helped the investigator in many ways. Some studies gave an idea to the present research study. These review of related literature showed the investigator that there are very few study related to Women health in slum areas: review evidence and also the ways to reach the objectives of the study.

### REFERENCES:

Prior publication by the author(s) of substantial portions of the data or study was appropriately acknowledged.

### RELEVANCE:

The study was relevant to the mission of the journal or its audience. The study addresses important problems or issues; the study was worth doing.

## FUTURE RESEARCH SCOPE:

1. Career For Faculty (<http://academicprofile.org/Professor/CareerForFaculty.aspx>)
2. Academic Plan (<http://academicprofile.org/Professor/AcademicPlan.aspx>)
3. Regarding Professor Promotion  
(<http://academicprofile.org/Professor/regardingPromotion.aspx>)
4. Fellowship for Post Doctoral  
(<http://academicprofile.org/Professor/FellowshipForPD.aspx>)
5. Online Course on Research (<http://onlineresearch.in/Default.aspx>)

## SUMMARY OF ARTICLE

		Very High	High	Average	Low	Very Low
1.	Interest of the topic to the readers		✓			
2.	Originally & Novelty of the ideas	✓				
3.	Importance of the proposed ideas		✓			
4.	Timelines			✓		
5.	Sufficient information to support the assertions made & conclusion drawn	✓				
6.	Quality of writing(Organization, Clarity, Accuracy Grammer)			✓		
7.	References & Citation(Up-to-date, Appropriate Sufficient)		✓			

### Future Research Suggestions

This Article can expand further research for MINOR/MAJOR Research Project at UGC
