INTRODUCTION :

India has one of the largest educational systems in the world. The total enrolment exceeds 100 millions. There are several million students receiving higher education and the number engaged in research. There has been a great upsurge in Indian education since independence, but it is only the beginning of an educational revolution crucial to the economic and social development of the country. Libraries are direct incentive to the development of educational, social and culture activities. They contribute a lot to the awakening of public interest in day to day affairs by facilitating mutual exchange of knowledge among different sections of people. In the words of Dr. S.R. Ranganathan, "Libraries are not mere store houses; they are rich springs from which knowledge flows out to irrigate the wide field of education and culture".

The Sahitya Academy Library is one of the most important multi-lingual libraries in India with a rich collection of books on literature and allied subjects in 24 languages recognised by the Sahitya Academy. The Library is also well-known for its huge collection of books on literary theories and criticism, women's studies, cultural histories and translation studies. Its specialized collections include publications on and by Rabindranath Tagore, Sri Aurobindo and Mahatma Gandhi. It also includes enriched reference books focusing mainly on Indian and World literature, philosophy, religion, art and culture. The library also has a special collection of books donated by Prof. Gopi Chand Narang. The computerization of English, Hindi and Tamil collections of the Library has been completed. Online catalogues for English, Hindi and Tamil books are now available on website for users. Computerized cataloguing of other languages have also been started.

The regional offices' libraries of the Academy at Bangalore, Kolkata and Mumbai have sizeable collections. The libraries at the Regional Offices are being built up as centers for the concerned regional languages and are being imagined as link institutions for important language libraries in the region.
